THE STORY

Like many little girls, my daughter loves Unicorns.

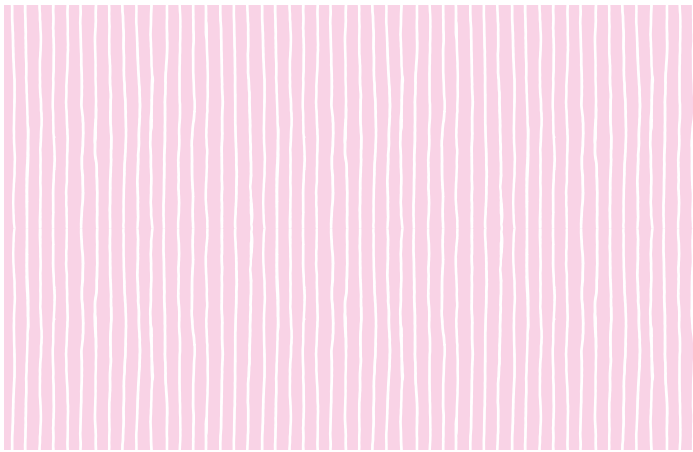

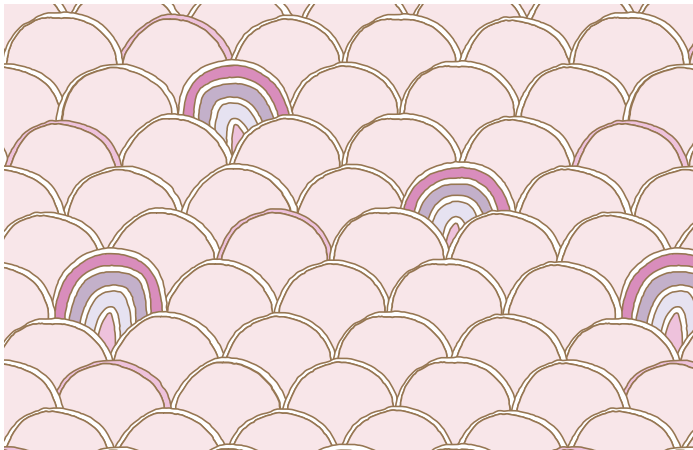

This collection is dedicated to her and the joy of her new bedroom.

The Unicorn meadow is a place to go to remember who you are, your power, your magic and your light. The pretty, pastel colours are light and glowy and transport us to the magical world of hope and possibility.

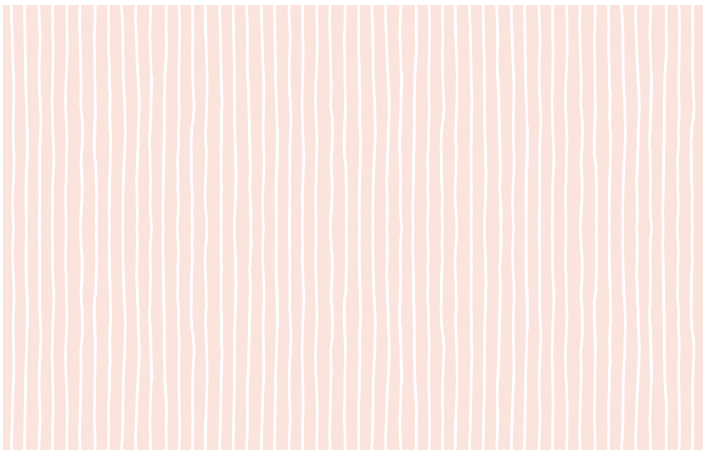

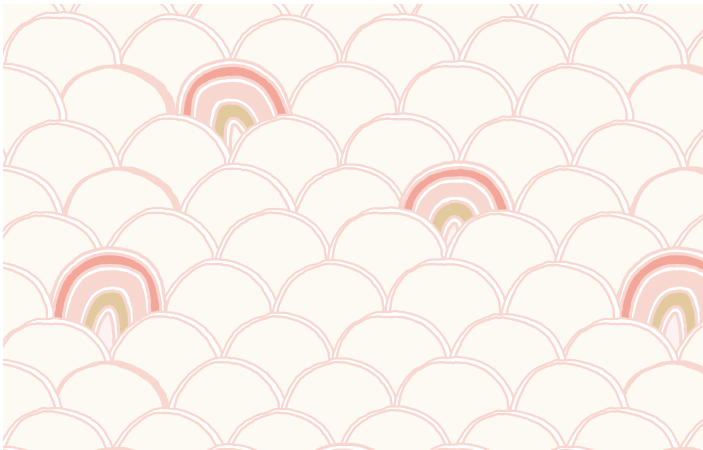

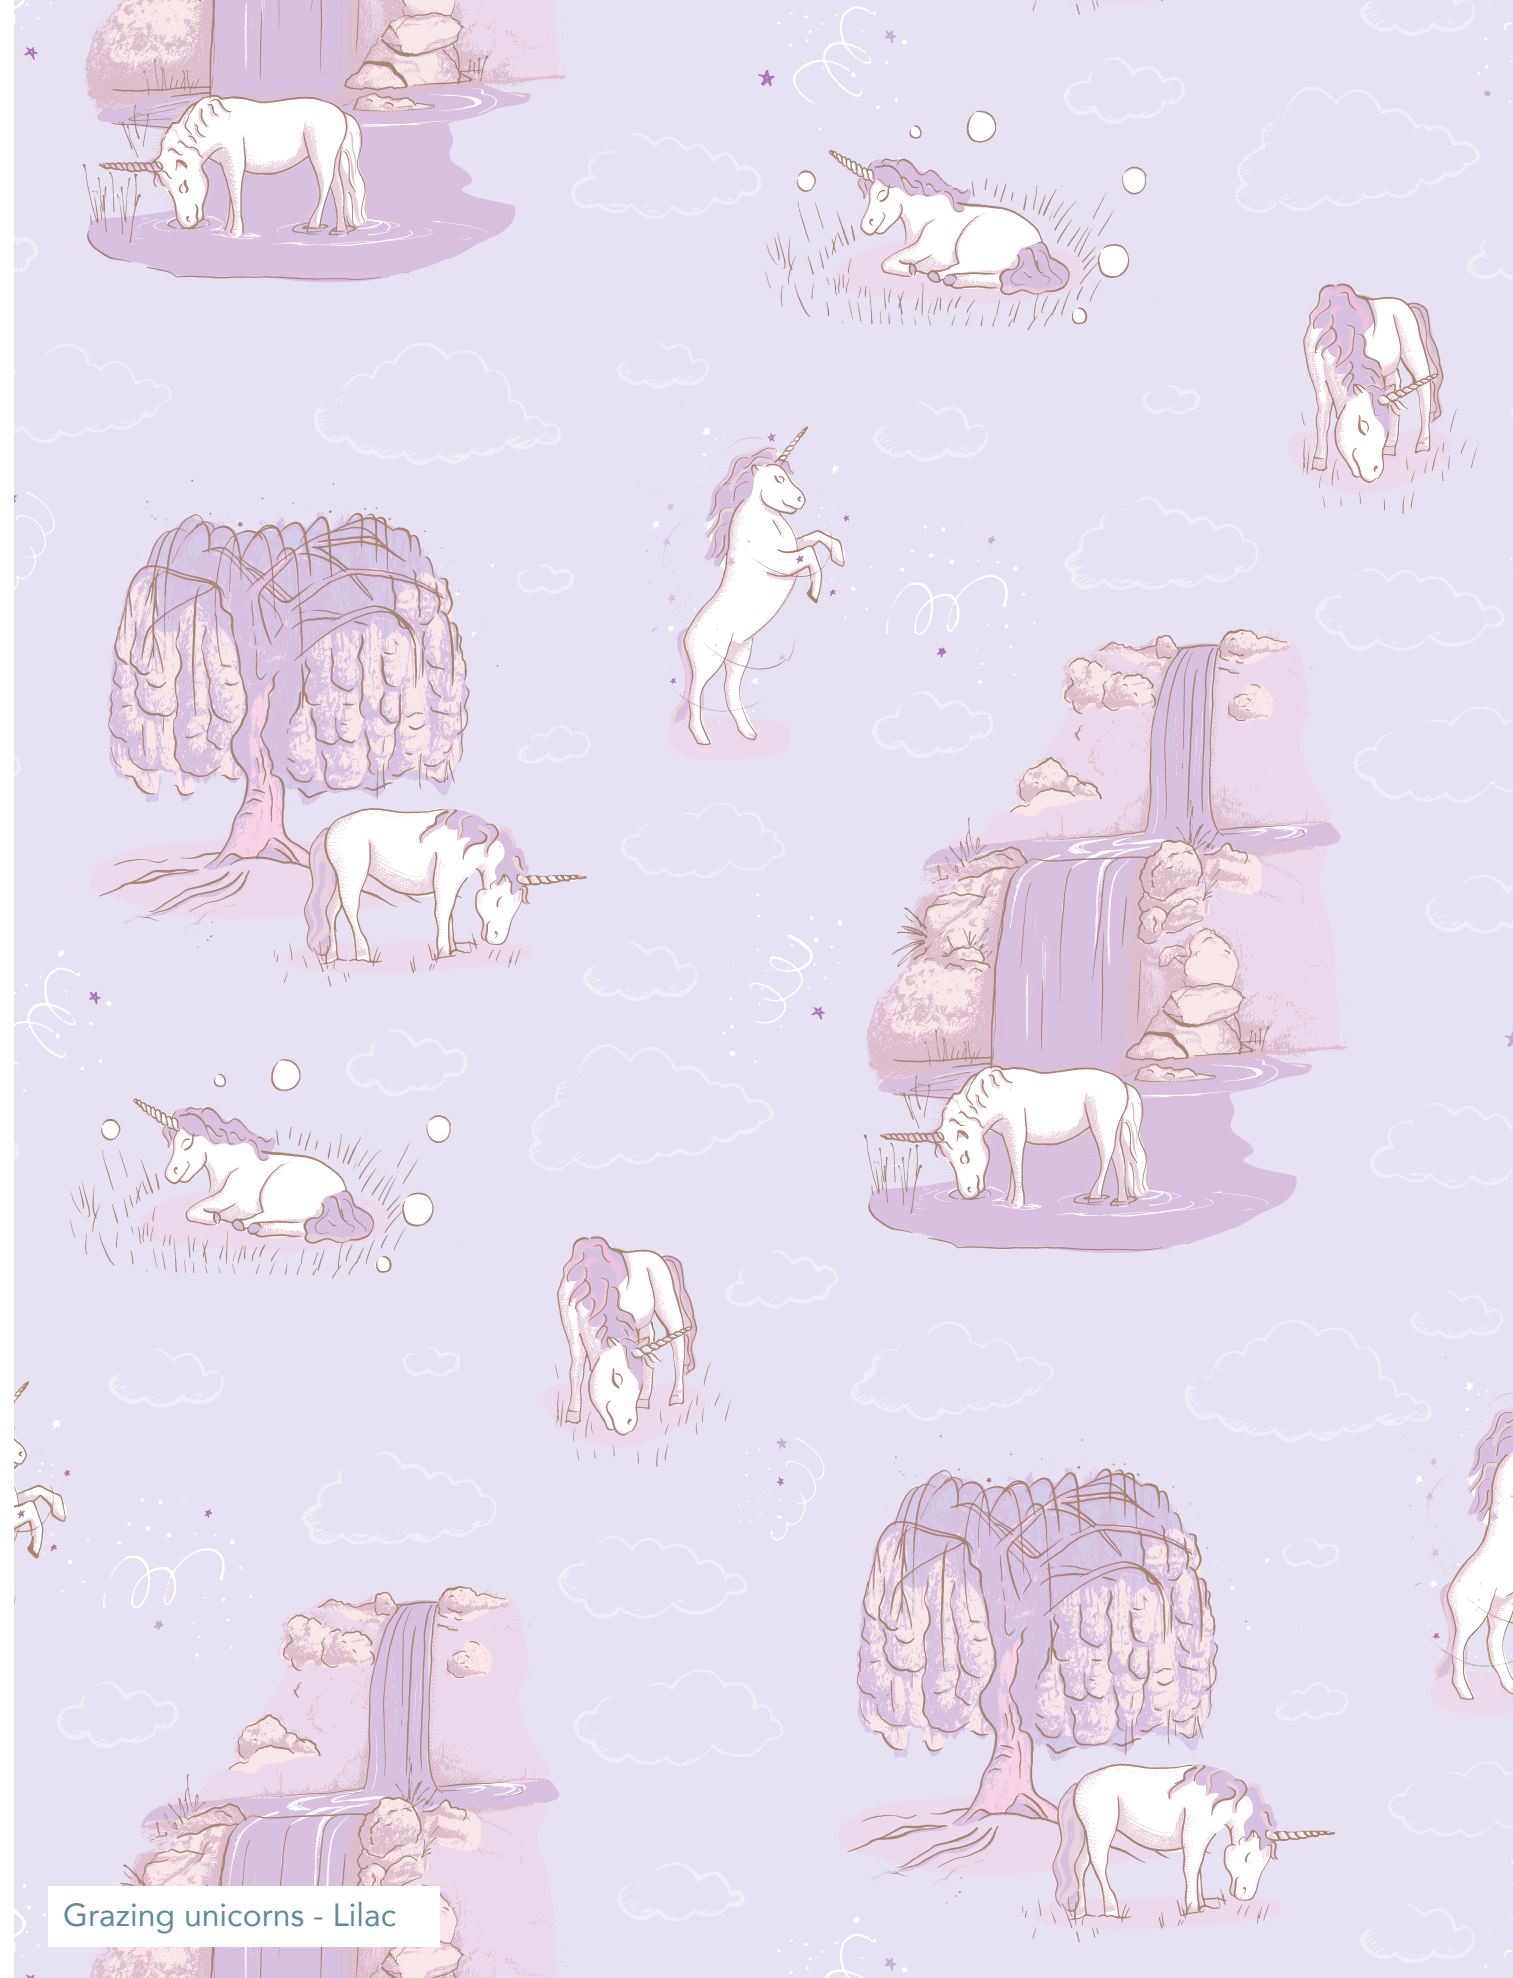

The Magic in Esmé features 5 patterns and a placement print.
This mini collection is available for licencing in 2 colourways;
Lilac Dreams and Rose Meadow

ABOUT ME

I'm Ellie, the Surface Pattern Designer from the West Midlands in the UK. I am now settled in the gorgeous South of France with my husband and daughter. I have an extensive background in web and print design with my most recent occupation being a mummy. My daughter is my muse and her magic is infectious!

- I love to create delicate hand drawn illustrations, magical themed artwork, and wellbeing themes that inspire grown-ups and children alike.

Wellbeing is my thing. I'm lit up by metaphysical and spiritual concepts. which often take me down a rabbit hole of discovery! Hence you will find this theme is a huge influence in my work
